## EDUCATION

### ATLANTIC TECHNICAL UNIVERSITY, CO. GALWAY

September 2019 – November 2023

#### Bachelor of Design (Honours)

Developed the skills required to become a game designer: from narrative design to animation, level design, character design, 3d and 2d. I studied how games should be made and the necessary elements and gained skills to examine and solve problems in game development.

With practical university courses, I learned fast-game development through creating small-game projects. An Erasmus exchange provided an opportunity to study a wide range of games and narratives from a diverse perspective.

Much university work involved group work, providing the opportunity to develop problem-solving and teamwork skills. I developed project and time management skills and learned to be open-minded but decisive in actions and creative choices.

**Referee:** Professor Manus Burke (Game Design)

## PROJECTS

### CLARE COMHAIRLE NA NÓG – YOUTH COUNCIL

September 2016 – 2019

Comhairle na nÓg empowers young people to voice their opinions on local issues and policies. During this experience, I faced various situations requiring me to think quickly and creatively. I had the opportunity to observe how the government operates and supports young people and also participated on an exchange program to Iceland where I learned about culture and government. Comhairle Na nÓg taught me invaluable skills, including effective communication, decision-making, and teamwork.

## SKILLS

- Quick Learner
- Decisive
- Mediator
- Team Worker
- Able Under Pressure

## PROGRAM PROFICIENCY

- Blender
- Aseprite
- Photoshop
- Premiere
- Unity
- Intermediate C#

## LANGUAGES

- English
- Polish
- Beginners Spanish

## HOBBIES

- Swimming
- Art & Drawing
- Music
- Electronics
- Cooking
